

Standard Bottle Jacks

These heavy-duty American made hydraulic hand jacks are built for service under constant use. They feature a heavy-duty ductile-iron base (3 to 20-ton) for a wide stance and positive load support. The 30-ton model D-51127 features a machined steel base that is drilled and ported to accept a gauge. All units feature a fluid bypass and a stop ring to prevent damaging over-travel.

The intended use of all these models is for heavy-duty trucks, farm equipment, building construction, mobile home set-up, and as original equipment for manufacturers of many products. All units are furnished with a two-piece 21" zinc-plated handle, unless otherwise noted.

100% American Made.....with American Pride

D-51122
3 Ton

D-51123
5 Ton

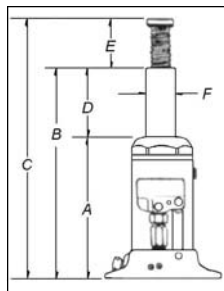

- A single piece release is standard on our 3, 5, 8 and 12 ton capacity jacks. Pictured on page 3.

D-51124
8 Ton

D-51125
12 Ton

D-51126
20 Ton

D-51127
30 Ton

- 2 piece release is standard on our 20 and 30 capacity jacks. Pictured on page 4.
