

Hydraulic Floor/ Service Jacks - Long Chassis 10 Ton Capacity - USA Made

USJC Model #: D-51224

Intended Use: A heavy-duty professional quality long chassis hydraulic floor/ service jack designed for a variety of automotive shop uses from tire-changing on a compact car to track removal on a heavy-duty tractor.

Features:

- Counter balanced handle.
- Three position handle lock.
- Low silhouette.
- Single speed pump for low maintenance.
- Handy foot pedal for quick engagement of load.
- Positive release lever for controlled descent of the load.
- Engagement of safety latch on release lever prevents load from being lowered prematurely.
