

Garage/ Jack Stands 3, 6 & 10 Ton Capacity

Garage/ Jack Stands (Vehicle Support Stands)

Features:

- “Double lock security system” utilizes two (2) 65-45-12 ductile iron castings to engage two (2) teeth on the pawl and load/ extension bar to lock in place.
- Made of high quality steel and 65-45-12 ductile iron castings welded together
- 3 and 6-Ton models feature stamped legs held in position by an outside perimeter ring welded to the legs.
- The 10-Ton model features heavy gauge formed steel angle legs, perimeter braced and welded together.
- Stands are Powder-coated red and load/ extension bars powder-coated dark grey to prevent paint chipping and provide a more durable finish.
- Per ASME PASE Standards, the rated capacity is per PAIR. They are only sold and intended to be used as a pair.

**D-41610
6-Ton**
